User Flow:

Register with our product.

Step 1:

User arrives at our welcome screen and notices a button to proceed forward for registration.

The user is also able to skip this step and go straight to our home page.

Step 2:

The user is prompted to add their email and password. They can confirmed those details and proceed.

Step 3:

The user can add a photo or skip that step and move forward.

Step 4:

The user can now pick intrests and hobbies to personalize their shopping experience.

Step 5:

Success. The user has registered for the Habitual product and can now access all of our features.

User Flow:

Finding the right product through search

Step 1:
The user is able to begin the search from the home screen. The user can click the search input.

Step 2:
The user receives a keyboard prompt within a search overlay and is able to enter their search.

Step 2.1:
The user is also able to find the right product if it shows up on the home screen.

Step 3:
As user types, the product gives the user suggestions of potentional searches. The user clicks on the search item that related most to their intended search.

Step 4:
The user is presented with many search results. And now they choose the product that they have been looking for.

Step 5:
The user is now able to review the product that they searched for and can decide if they want to add item to their cart.

Customer Service

User Flow:

Making a purchase.

Step 1:

The user is able to see a cart notification that they can interact with. The user taps on the cart navigation item.

Step 2:

The user is able to review the item/s in their cart. Once their are happy with this information they can proceed to the checkout process by tapping the CTA.

Step 3:

The user is able to review any details in relation to the total price, checkout details, user payment details and user address details.

Once the user is satisfied they can complete their purchase.

Step 4:

The user gets a confirmation screen and is able to return back to the home page.

As a shopper, I want to be able to enter my name and email address so that the application knows who I am.

I want to give a list of things I am intrested in.

I want to list products that I really like.

I want to see an intro screen

I want to tell you my hobbies.

I want to see how far along I am in the process for onboarding.

As a shopper, I want to be able to enter my address so that I can get relevant results based off of my location.

I want to connect previous shopping application to show you my purchase history.
