
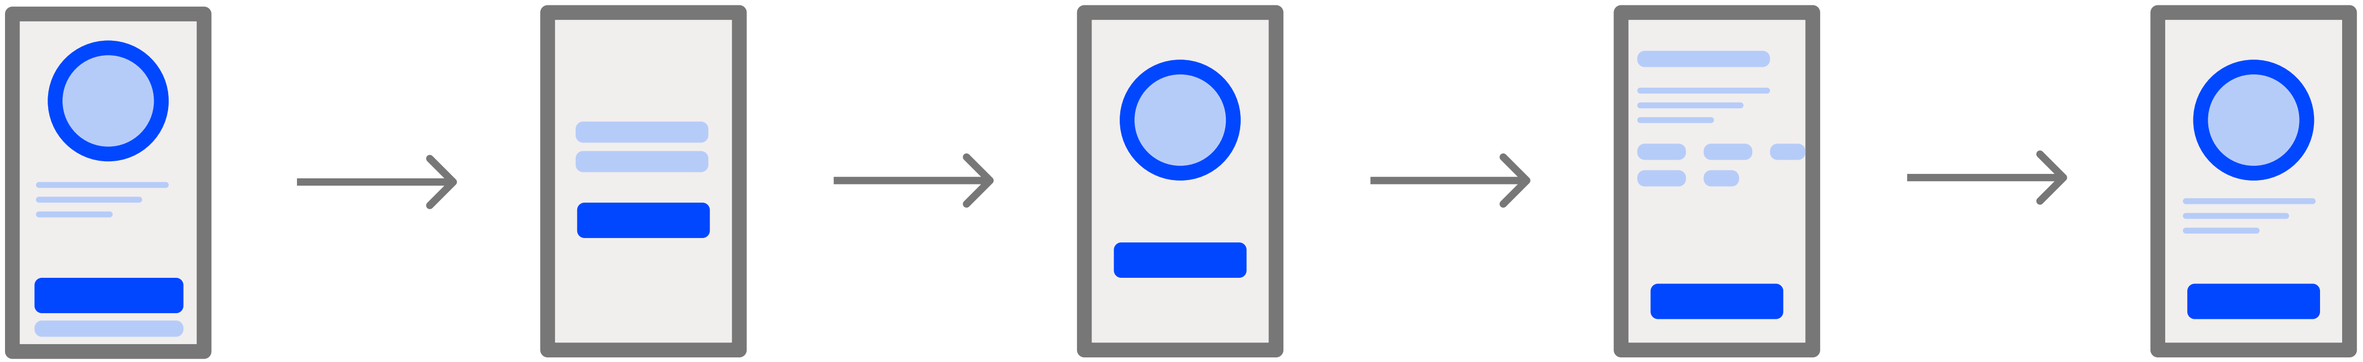
User Flow:

Register with our product.



Step 1:

User arrives at our welcome screen and notices a button to proceed forward for registration.

The user is also able to skip this step and go straight to our home page.

Step 2:

The user is promted to add their email and password. They can confirmed those details and proceed.

Step 3:

The user can add a photo or skip that step and move forward.

Step 4:

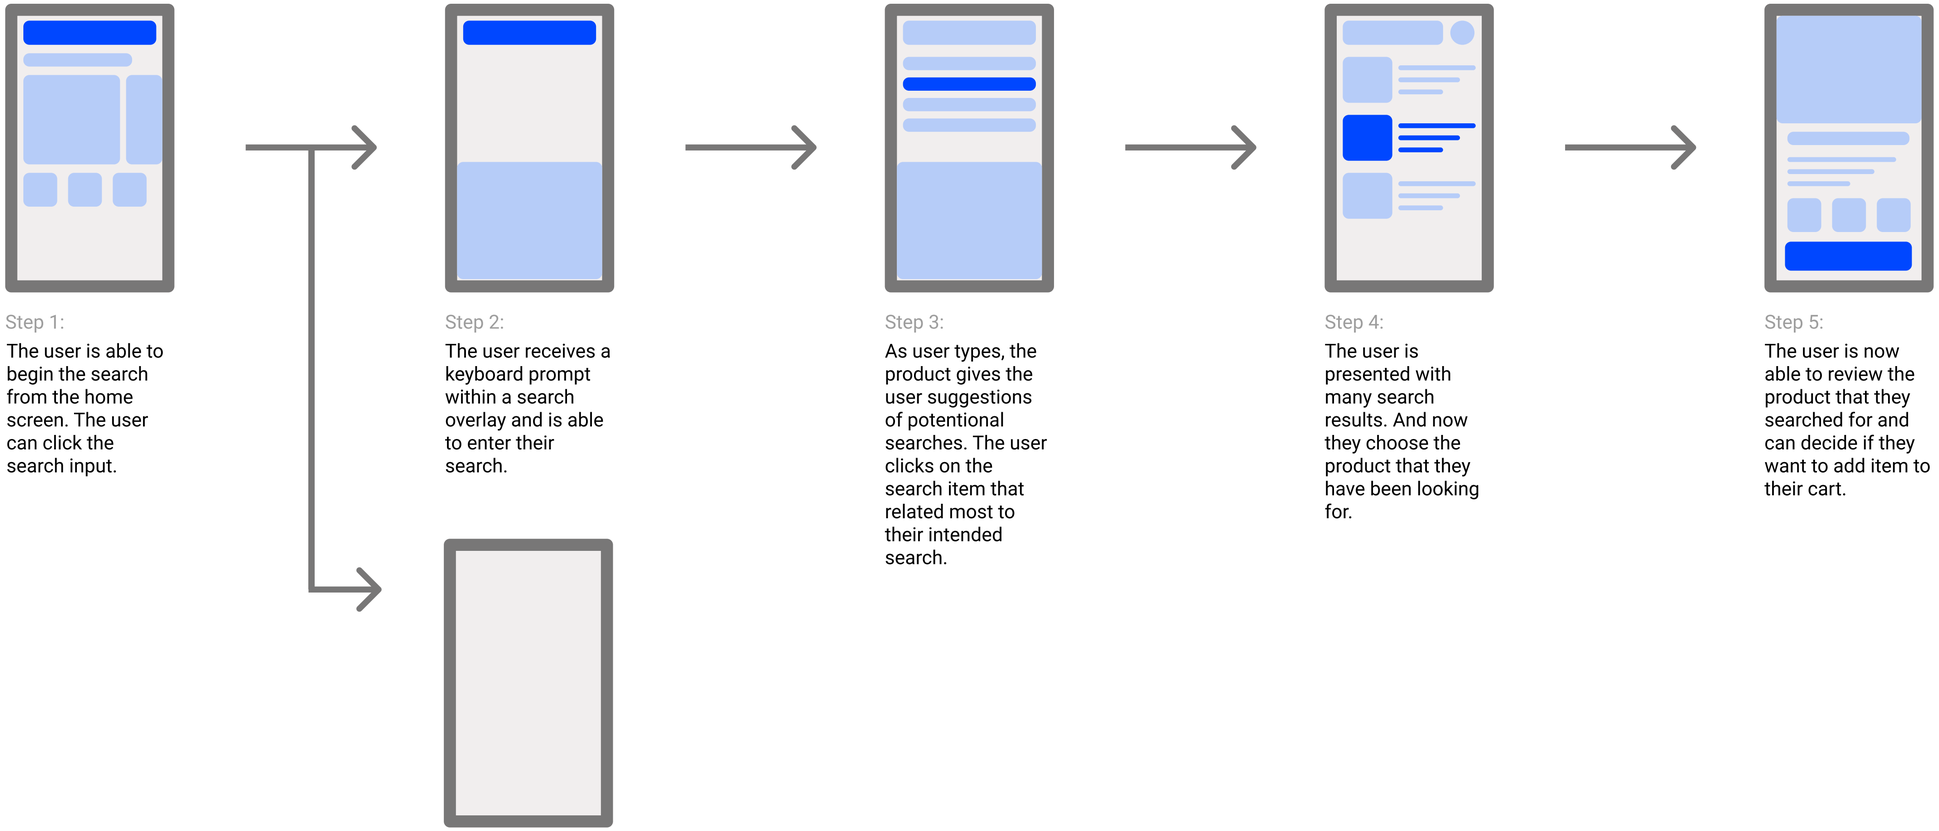
The user can now pick intrests and hobbies to personalize their shopping experience.

Step 5:

Success. The user has regiistered for the Habitual product and can now access all of our features.

User Flow:

Finding the right product through search



Step 1:
The user is able to begin the search from the home screen. The user can click the search input.

Step 2:
The user receives a keyboard prompt within a search overlay and is able to enter their search.

Step 2.1:
The user is also able to find the right product if it shows up on the home screen.

Step 3:
As user types, the product gives the user suggestions of potentional searches. The user clicks on the search item that related most to their intended search.

Step 4:
The user is presented with many search results. And now they choose the product that they have been looking for.

Step 5:
The user is now able to review the product that they searched for and can decide if they want to add item to their cart.
